

## **STATE PROCUREMENT OFFICE (SPO)**

### **List of Registered Private Providers**

**(List of Qualified Health and Human Service Providers  
for Use with Competitive Purchase of Services Method of Procurement,  
Pursuant to Section 103F-402, HRS)**

**Updated March 7, 2003**

The following is a listing of qualified providers who have registered with the State Procurement Office (SPO) to demonstrate their good business standing and compliance with applicable law as responsible health and human service providers. This list will be revised as needed. This list should not be confused with the "Treatment List of Qualified Providers."

**Background:**

The State Procurement Office (SPO) has developed a registration process for private health and human service providers. Its purpose is to qualify private providers before they develop and submit proposals to compete for state contracts. This process allows private providers to demonstrate their good business standing and compliance with applicable law one time. It also is a disclosure process whereby the State notifies the potential provider of various requirements for contracting should the provider be selected. In the past, providers were required to demonstrate their good business standing by submitting documents each time they submitted a proposal. In turn, each State agency conducted its own separate process to qualify providers. The repetitive effort for providers to submit qualifying documents to each State agency in multiple copies to be reviewed by each State agency was wasteful. SPO has streamlined the qualification's process by establishing a single mechanism and conducting it for all State agencies. Currently, SPO conducts the qualifying of providers for all State agencies when providers apply directly to SPO. SPO maintains and updates the list of qualified providers and distributes this list to State agencies. This has reduced the number of staff hours state agencies have devoted to this process as well as reducing the burden on private providers when submitting proposals.

Private providers on the List of Registered Providers have met the minimum qualifications as of the date they were evaluated by the State Procurement Office. The SPO completes periodic reviews of registered providers good standing. State agencies may also call the Department of Commerce and Consumer Affairs Resource Center at 587-3295 to verify that any organization (except sole proprietors/individuals or partnerships) is in good standing.

The DCCA website for verifying good standing is <http://www.ehawaii.gov/dcca/cog/html>

If a provider is listed as being not in good standing (NGS-), state agencies should not contract with the provider until they are in good standing.
